MAKE IT DO OR DO WITHOUT

**NOT QUITE
ZERO
WASTE
BUT NOT
FAR OFF**

**WE'RE MAKING
A BIG EFFORT TO
BECOME MORE
SUSTAINABLE AND
HERE'S HOW...**

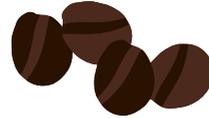

ZERO WASTE COCKTAILS

Our zero waste approach means our cocktails are to. This means we spend a lot of time working out what to do with the leftovers! We're making a big effort to become more sustainable and here's how...

SPENT COFFEE

We use the leftover coffee grounds from our espresso to infuse in a sweet vermouth. Rich bold flavours with roasted undertones.

APRICOT PIT ORGEAT

Apricot kernels naturally have an almond like flavour which lend themselves to an orgeat syrup. The apricots are used in our 'No Whey' with the pit orgeat found in the 'Brunswick'.

CLARIFIED CITRUS

Once juiced and peeled, the citrus husks would normally be destined for the trash. We combine these lemon and lime husks with water and agar agar. The result is a clear citrus liquid with a 3 month shelf life.

CLARIFIED YOGHURT

Clarification is a technique in which an acidic ingredient is used to curdle dairy, separating it into curds and whey. In this instance, yoghurt. The turds trap particulates, so that the when the liquid is filtered, it comes out clear.

OLEO SACCHARUM

Oleo-saccharum is Latin for 'Oil Sugar' and is the name given to a syrup made by using sugars hygroscopic property to extract the fragrant natural oils in citrus peel or fruit skins.

COCKTAILS

ALL OUR COCKTAILS ARE £8.50
